

A reception was held Oct. 18 at the Rayburn House Office Building on Capitol Hill to introduce to Congress W. Lloyd Johns, Gallaudet's new president. The reception was hosted by Congressmen David Bonior (D-MI) and Ron Packard (R-CA), both of whom serve on the College's Board of Trustees. Pictured at the reception, above, left to right, are Board member Phil Bravin, interpreter Carol Denninger, Special Assistant to the President Merv Garretson, Bonior and Vice President for Public Services Tom Mayes. Pictured at left are Johns and Congressman Jamie Whitten (D-MS), chairman of the House Appropriations Committee.

Board of Trustees meets with Johns, tours KDES and MSSD

The Gallaudet Board of Trustees held its first meeting since W. Lloyd Johns assumed the presidency of Gallaudet. On Friday afternoon, Oct. 21, in what was the final session of the nearly week-long meeting and retreat, Board Chairman (as she prefers to be called) Jane Bassett Spilman pronounced the Board well pleased with the man it had chosen for Gallaudet. She called Johns "very decisive" and a man "able to separate the wheat from the chaff." His decisions, she said, have the "full endorsement" of the Board.

Spilman also commended several others who had made the meeting and retreat what she considered time well spent for the Board. She spoke of the professional job Director of External Affairs Sue Ellis had done on the congressional reception hosted by Board members Rep. David E. Bonior (D-MI) and Rep. Ronald C. Packard (R-CA). Many members of the House of Representatives, committee staff members, people from Gallaudet and others at-

tended the reception held Tuesday evening, Oct. 18, in the Gold Room of the Rayburn House Office Building. (The Senate was held late in session that day.)

Spilman asked Vice President for MSSD and KDES Bob Davila to take back to his faculty and staff the commendation of the Board for their dedication and professionalism. Members of the Board had spent part of Wednesday and all day Thursday at a retreat focusing on the Pre-College programs.

During the retreat, Davila introduced the Board to the programs. Deans Lee Murphy and Mike Deninger and principals Mary Hockersmith and Ken Tiktin presented overviews of MSSD and KDES. Members of the Board visited classes and talked with students and faculty and staff members. They had lunch with the students on Thursday, and their last stop that afternoon was at the Training Apartment Program

Marjoriebell Holcomb named director of Ohlone extension center

by Nancy Connors

The sign for Ohlone used to be "Oh, + lonely" for the way the word sounds when spoken. But Ohlone is the name of an Indian tribe. The college is very proud to be named for a part of the California heritage. So the sign has been changed to an O-handshape moving from the nose to the top of the head like the sign for Indian.

This is one of the stories Marjoriebell Holcomb told during her week of training and information exchange at Gallaudet as the new director of the College's extension center at Ohlone College in California.

Ohlone is a relatively new community college built 12 years ago. As a new school with an administration looking for new programs and aware of the movement to open services to all handicapped persons as a result of social legislation in the 1970s, Ohlone began its programming for deaf students in 1972. Four deaf students have graduated with associate degrees from Ohlone.

There are now approximately 130 deaf students enrolled in the college on a full-time basis. Like all California community colleges, the school has an open door policy to California residents. Seventy-two percent of the deaf students commute daily to the campus, 20 percent of the students are from foreign countries and one percent are from out-of-state. The college is accredited by the Western Association of Schools and Colleges and the National League of Nursing.

This year Ohlone became one of 10 regional centers to receive federal monies to sustain interpreter training programs. Through this grant Ohlone serves four states; California, Utah, Nevada and Arizona. Holcomb served most recently as the director of the Regional Interpreter Training Center. On Oct. 10, she moved her offices down the hall to become Gallaudet's Extension Center director.

Through the extension center, Gallaudet will be serving Washington state, Oregon, Nevada, Arizona and California with seminar workshops and other outreach services from the College for Continuing Education.

Holcomb said that she has already scheduled a Western Deaf Women's Conference for January and will be drawing on some of the resources she finds during her stay at Gallaudet.

She is no stranger to Gallaudet, its resources and the education of deaf people. She graduated with a liberal arts bachelor's degree in 1947 from the College and began a 20-year teaching career at state schools in South Dakota, Tennessee and Indiana. Dur-

ing that time she also worked toward a master's degree in Special Education from the University of Tennessee. In 1968 she earned a master's degree in Administration and Special Education from California State University at Northridge. Following two years of work with the Santa Ana Day Program, Holcomb began working with the Golden West College at Huntington Beach in California. There she worked on the establishment of post-secondary educational programs for deaf students and adults returning to school. It was

KDES nears full accreditation

Kendall Demonstration Elementary School has received certification from the Middle States Association of Colleges and Schools (MSA). This formal recognition leaves the school just one step away from full accreditation, which is expected early next year.

The Governing Board of MSA unanimously voted to certify Kendall School on the basis of the Association's accreditation team visit to the school and its subsequent report of findings.

KDES already has begun the next and final step in the accreditation process, narrowing schoolwide priorities down to three areas and developing action plans to meet those goals. The action plans will identify the events, activities and resources it plans to implement in order to enhance its parent program, to further individualize educational programs and to establish a curriculum and evaluation master plan.

Following the submission of action plans to the board, MSA will send one more visitor to the school, after which the board will vote on full accreditation.

MSSD hosts first theatre festival

The Model Secondary School for the Deaf, in its first Theatre Showcase Festival, Oct. 20, 21 and 22, brought together deaf and hearing students from three schools who performed, practiced and left the school clamoring for an encore.

Students from MSSD, The West Virginia School for the Deaf and Bethesda-Chevy Chase High School (B-CC) presented their own plays each evening and spent Saturday in small groups learning techniques of creative sign language, mime, dance, makeup and master acting. Eric Malzkahn, Marcia Freeman, C. Emmitt Woodey and Tim McCarty, MSSD's performing arts faculty members, led the workshops.

"It was all we hoped for plus we really got some unexpected results," said drama teacher Tim McCarty. "B-CC is going to interpret their play to make it accessible for hearing impaired audiences and they have invited our students and West Virginia to attend. Some of their students are also applying for student internships that would let them attend MSSD for a specified length of time to accomplish certain goals in performing arts. They're interested in trying out for our spring show, too, and West Virginia has invited us to perform there."

For the Showcase, MSSD performed "Goodbye to the Clown," a one-act drama produced and directed by senior Tressy Kimble, and "Cinde-Riley," a twist on the traditional fairy tale with an Irish brogue, directed by communications teacher Laura Dugger.

"It was so good and the signing was

so expressive," said B-CC student Nina Myrick.

West Virginia staged comic sketches excerpted from "A Thurber Carnival," the school's first venture into dramatics. B-CC offered scenes from "David and Lisa," the story of two emotionally disturbed teenagers, interpreted into sign language by MSSD Thespian Society sponsor Cindy Rohr-Redding and McCarty.

The festival was an introduction to both sign language and deafness for most of the B-CC students. The exposure was broadened Saturday in Eric Malzkahn's creative sign language workshops and as the deaf and hearing students developed their own creative ways to communicate.

"I think it was really good that hearing students could come," said MSSD student Matthew Monett.

Agreed B-CC student Scott Lawrence: "I was a little scared at first, real awkward, but now I want to come back and stay for a month."

Host families needed

Host families are needed to take in international students during the winter break.

Families are needed from Dec. 19, 1983, to Jan. 16, 1984 when the campus dormitories will close. International students, who live in the dorms, must therefore find alternative housing for that month.

Students can pay a modest rent. For more information, call Toni Rees at x5638 (voice or TTY).

The Kendall Demonstration Elementary School Middle School Eurythmics class of Pauline Spanbauer presented an original Halloween play entitled "The Halloween Pumpkin" at the school. Shown here, class members act out a scene.

Board of Trustees meets with Johns

continued from page 1

at MSSD where they enjoyed refreshments prepared by students participating in the program.

Among the others Spilman commended on behalf of the Board were LaVarne Hines, Community Relations, and Vice President for Administration and Business Jerry Lee. Hines and Lee were praised for their work on the Northwest campus. Ann Davidson, dean of the School of Preparatory Studies, and John Schuchman, vice president for Academic Affairs, were told of the Board's enthusiasm for the academic life they will institute at the Northwest campus.

The Board toured the Northwest campus on Thursday evening after the conclusion of their Pre-College retreat. They also dined that evening in the dining room in Main on the newly renovated campus and met members of the Northwest Community Relations Council and the Northeast Gallaudet Community Relations Council. Johns, who hosted the dinner with his wife Dorene, commented that it was the first time that the Board and the members

of the two Gallaudet Community Relations Councils had been together. D.C. Councilwoman Charlene Drew Jarvis — who serves Ward 4, the Ward in which the Northwest campus is located — attended the dinner, as did Cindy Douglas of the office of Sen. Bob Packwood (R-OR) and Carrye Brown of the office of Rep. Don Fuqua (D-FL). Douglas and Brown were instrumental in facilitating the transfer of the former Marjorie Webster Junior College to Gallaudet.

The Board elected Oliver T. Carr, former president of the Washington Board of Trade, to membership on the Board of Trustees during the October meeting.

The Committee on Resources — Philip M. Sprinkle, Chairman — reported that functional salary increases for Gallaudet employees will be contingent upon receipt of appropriations. If Congress appropriates the funds, the increases will be retroactive to Oct. 1.

The Board's proposal for a long-range planning committee and information about the Gallaudet Foundation will be distributed soon on campus, Spilman said.

Sponsored R&D

Grant/contract deadlines

Provided below are application deadlines of selected federal programs that offer potential grant or contract opportunities for Kendall Green faculty, staff and graduate students. More details on programs of interest can be obtained from the Office of Sponsored Research, x5030 (voice or TDD).

Deadline Program

11/01/83	ED: FIPSE Mina Shaughnessy Scholars Program
11/01/83	ADAMHA: Prevention of ADM Problems in Children and Adolescents
11/28/83	ED: SEP Handicapped Education Training Grants
12/02/83	ED: Minority Institutions Science Improvement Program
12/06/83	HHS: OHDS Social Services Grant Program
12/06/83	ED: Special Services for Disadvantaged Students
12/13/83	ED: FIPSE Comprehensive Program
01/03/84	NEA: National Endowment for the Arts Challenge Grants
02/03/84	National Institute of Education (NIE): Unsolicited Proposals
No Specific Deadline	NSF: Honors Workshops and Materials Development for Pre-College Science and Mathematics
No Specific Deadline	NSF: Information Science and Technology Research Programs
No Specific Deadline	NSF: Presidential Awards for Excellence in Science and Mathematics Teaching

Applications accepted

The Office of Human Development Services has announced that it is now accepting applications for FY 1984 social services research, demonstration and training grants. Applications will be due Dec. 6.

Government agencies and non-profit and other organizations are eligible to apply for approximately 200 grants totalling an estimated \$23 million under the announcement, subject to final congressional action.

Awards will average about \$150,000 but the agency plans to fund a substantial number of smaller projects as well. Grants may not be used to subsidize existing services, but are aimed at supporting innovative programs.

Priority areas include: employment and income generation; community and family-based care; family services through the workplace; developmentally disabled; promoting family cohesion; Head Start; child abuse and neglect prevention; runaway and homeless youth; adoption opportunities; child welfare; the elderly and the family; program management improvements; and gerontology training.

OHDS is a branch of the Department of Health and Human Services. Instead of a formal grant proposal, applicants will submit a simplified pre-application consisting of a descriptive narrative. OHDS will invite about 500 full applications of the several thousand pre-applications submitted.

For further details, contact the Office of Sponsored Research or Office of Policy Development, Division of Research and Demonstration, Office of Human Development Services, 200 Independence Ave., SW, Room 732E, Washington, D.C. 20201, 245-6235.

Health lectures set

Eight lectures will be given during November in the Fall 1983 Health and Wellness Lecture Series sponsored by the Student Health Service. Each of the lectures will be given in Room 213 of Hall Memorial Building. The schedule follows.

"Eye problems" will be the topic of discussion on Nov. 3. The lecture will be given from 7 to 8 p.m. Immediately following, a lecture entitled "Sports Related Injuries" will be given. That presentation will last from 8 to 9 p.m.

On Nov. 9, a discussion on "Menstrual Problems" will be given for one hour beginning at 7 p.m. At 8 p.m., a one-hour lecture on "Birth Control" will be held.

"Diabetes" will be the lecture topic on Nov. 15 from 7 to 8 p.m. From 8 to 9 p.m., a discussion on "Hypertension" will be held.

Discussions on "Health Insurance" and "How to Choose a Doctor" are scheduled for Nov. 21. "Health Insurance" will be given from 7 to 8 p.m., with the discussion "How to Choose a Doctor" following from 8 to 9 p.m.

Published each Monday for staff and faculty of Gallaudet College by the Office of Alumni and Public Relations.

Gallaudet College is an equal opportunity employer-education institution. Programs and services offered by Gallaudet College received substantial financial support from the Department of Education.

Personnel Hotline

x5111 voice/TDD

Open Season

Open Season—the time of year when all permanent employees can either change to a new health insurance plan or option, switch from a “self only enrollment” to a “self and family” enrollment or sign up for a plan for the first time without restrictions—will start Monday, Nov. 14 and end on Friday, Dec. 9.

During those four weeks, permanent employees will have an opportunity to review summaries of the new, 1984 health coverages and compare plans in order to assure their health insurance coverage is adequate in 1984. Premiums will be increasing an average of 19% and coverages are bound to change. Just how the 1984 coverages will change is not yet known. As soon as all the information is received by Personnel, a new Plan Comparison Chart and cost sheet will be sent out.

During this year's Open Season, the Personnel Office will sponsor three health benefit fairs. Each fair will have representatives from the various health plans present as well as other available information on the health insurance program. Each fair will be held in the Multipurpose Room of Ely Center. The first will be held on Tuesday, Nov. 22 from 2 to 5 p.m., the second on Wednesday, Nov. 23 from 11 a.m. to 2 p.m. and the third on Thursday, Dec.

1 from 11 a.m. to 2 p.m.

At this time, Personnel has not received final confirmation from all the health plans as to whether or not a representative will be at the benefit fair. As soon as the final schedule is ready, it will be sent out to all eligible employees.

This year's Open Season will utilize the plan booklets from last year (1983). The Office of Personnel Management will provide Gallaudet with addendum sheets that will show all the changes in each plan for 1984. This means employees will get an addendum sheet for the plan in which they are currently enrolled and will not receive a new booklet. Employees who wish to compare different plans must use the 1983 booklets with separate addendum sheets for each one. The Plan Comparison Chart will help in reviewing the different plans.

Some new plans will also be offered during this year's Open Season. More details about those plans will be forthcoming.

Additional information on Open Season will be published in upcoming issues of *On the Green*. Individual memos will also be sent through campus mail to all permanent employees informing them of other specifics. For more information, call Kayt Lewis in the Personnel Office at x5113 (voice/TDD).

'Sign Me Alice II' set to open

Alice is a lady of the times and she has come a long way since 1974. She first appeared before Gallaudet audiences in Gilbert Eastman's play *"Sign Me Alice"* as a woman embroiled in the controversies of sign language communication and the right to choose her own language. On Nov. 4, in *"Sign Me Alice II,"* Alice Babel-Newton faces the dilemmas of the 1980s and the audience will see if and how Alice is speaking for her rights today.

Eastman, professor of Theatre Arts, is excited about the new style in playwriting he used in this production. The play will open with a current Washington, D.C., scene and then flash back to another city to tell the audience the events of the last 10 years. Five of the original characters will appear in the new production. Drs. Zeno and Ylvisker, Alice Babel, Mark Newton and Miss Maughan will be joined by three new characters as the action unfolds.

Eastman's sequel will appear at Elstad Auditorium for two weekends,

Peggy Volksdorf as Alice Babel-Newton in *'Sign Me Alice II.'*

Nov. 4 and 5 and 11 and 12 at 8 p.m. Tickets are now on sale at the auditorium box office each afternoon from 2 to 5 p.m.

Holcomb named director at Ohlone

continued from page 1
this program that was later the model for the program started at Ohlone.

Holcomb's years in California were interrupted by four years at the Margaret S. Sterck School in Delaware where she worked in the statewide Deaf-Blind Program. She and her husband, Roy, who also graduated from Gallaudet in 1947, returned to the west coast in 1977 when he began working at the California School for the Deaf at Berkeley. She then began her career at Ohlone.

Ohlone is located in Fremont, CA, which is now the home of the Califor-

nia School for the Deaf. Holcomb says that word of mouth has spread that Fremont is becoming "a new mecca for deaf people." The city is located on a strip of land with hills to the east and the bay to the west. Approximately 135,000 people call Fremont home and many deaf adults have been moving to the area.

Holcomb sees the extension center as a natural part of the growth of Gallaudet college and the community of Fremont. "The deaf adults in the area know that it is okay to go back to school to learn for the pleasure of learning," she said.

During the reception on Capitol Hill, Dr. Johns and his wife, Dorene, met with Mae Mineta, a volunteer in the Gallaudet Visitor's Center, and her husband, Congressman Norman Y. Mineta (D-CA).

Gallaudet employees present papers at regional conference

Gallaudet College was well represented at the recent Eastern Regional Conference on Education of the Deaf, with a number of employees presenting papers. The conference, sponsored by the Maryland School for the Deaf, was held Oct. 14.

"Education of the Deaf: Past, Present, Future" was the theme of the conference, which attracted 600 professionals who work with deaf persons in the eastern region. Washington, D.C., Maryland, Virginia, Delaware, New Jersey, Pennsylvania and West Virginia encompass the eastern region.

The keynote address during the day-long conference was given by Boyce Williams, who now occupies the Powrie V. Doctor Chair of Deaf Studies at the College.

Carol LaSasso, an Education professor, discussed the results of an investigation of deaf and hearing students' use of visual matching on tests of reading comprehension. During the presentation, LaSasso illustrated several variations of strategies used by deaf readers.

David S. Martin, also an Education professor, helped prepare a paper entitled "Instrumental Enrichment: Can Thinking Skills be Taught to Hearing Impaired Children?" Martin and representatives of the Maryland School for the Deaf presented activities and demonstrations from the special thinking skills program, Instrumental Enrichment, for students at least 11 years old. The group also shared research results from two years of controlled experimentation with hearing impaired youth.

In another presentation, Martin joined fellow Education professors Virginia Heidinger and Robert T. Mobley in giving a three-part panel discussion. The discussion focused on Gallaudet's Undergraduate Teacher Preparation Program in general education for hearing impaired teachers and the impact of increased standards by certifying bodies on the graduate level preparation of teachers of hearing impaired students.

Francis M. Duffy, a professor in the Department of Administration, gave a paper entitled "Instructional Supervision: What is it? What Can it Do?" In that presentation, Duffy described the concept and various models of instructional supervision.

"Foreign Language and Cross-Cul-

tural Studies for Hearing Impaired High School Students" was the title of the paper given by Carole N Frankel, director of the College's International Studies Program. Her presentation focused on responding to the questions of why hearing impaired students should learn a foreign language and how to teach foreign languages and cross-cultural studies to hearing impaired students.

Gerilee Gustason, an Education professor, presented a paper entitled "Signing Exact English and American Sign Language: Using Both for Maximum Clarity."

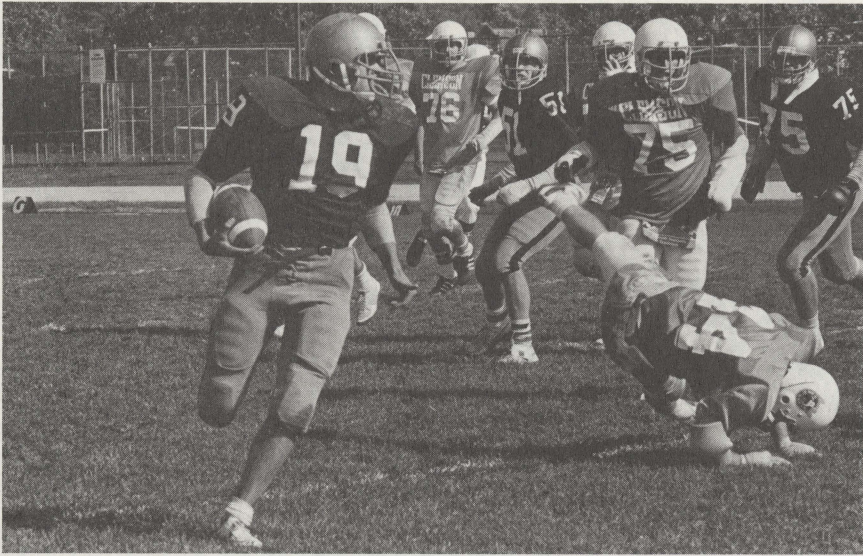

John P. Madison, another Education professor, presented a paper he prepared with David S. Martin entitled "Mainstreaming the Hearing Impaired Teacher." That discussion presented and analyzed a program for training hearing impaired undergraduates to receive professional teaching certification as teachers of hearing students. The discussion touched on how hearing impaired teachers function with hearing children.

In a discussion entitled "Exploding Some Myths About Management," William J.A. Marshall, a professor in the Department of Administration, talked about frustration and disillusionment of managers caused by preconceived notions. Those preconceived ideas center on what managers think others expect them to be doing.

Michael Deninger and Philip Mackall represented Kendall Demonstration Elementary School during the conference with their paper, "Multiple Uses of Microcomputers in Schools for the Deaf." Their presentation demonstrated several applications of microcomputer technology in a school for deaf students, using the KDES Computer Managed Education System as an example.

Kendall seeks recipes

The Ways and Means Committee of the Kendall Home and School Organization is planning a cookbook as a means of raising funds. All types of recipes are needed for the book and can be sent to KHSO Cookbook Project through campus mail to Kendall. The deadline for collecting recipes is Nov. 10. For details, call Mary Ann Leon at 938-1805 (TTY) or Paula Yanke at 281-2214 (TTY).

Leslie Firl, #19 for the Bison football squad, scoots around the right end for a big gain during the Homecoming game against Clemson.

Bison take Homecoming games

The football, soccer and field hockey teams gave the Homecoming crowd, estimated at 2,000, plenty to cheer about on Saturday, Oct. 22.

The football team clobbered the Clemson Club football team 49 to 12 behind the running of Cliff Moers who scored four touchdowns and had 132 yards rushing in only 13 carries. Moers scored Gallaudet's first three touchdowns on runs of one-yard, six yards and 14 yards. Then, James Ballmer pulled in a three-yard TD pass from quarterback Walter Ripley and before Clemson could get its act together, the Bison had a 29 to 0 lead. Ripley finished the day with 15 pass completions in 24 attempts for 225 yards.

Clemson finally hit pay dirt just before the half ended but the Bison came right back with another TD on an eight-yard pass from Ripley to John Sprague. The Bison took a 35 to 6 halftime lead to the locker room.

As the third quarter opened, Moers added his fourth TD of the day with an eight-yard run. Leslie Firl concluded the scoring for the day with a one-yard run in the final quarter.

The women's field hockey team had a field day against Marymount College in registering a 4 to 1 victory. The game was played adjacent to the football field. Some spectators watched both games at the same time.

The soccer team defeated Shelton College 4 to 0 in a game that began one hour after the football game started. This victory gave the Bison booters an 8-3 record with one game remaining. The eight victories tie the record for the most wins in a season by a Gallaudet soccer team. The 1977 team posted an 8-3-1 record but if the Bison win the final game of this season, a new record will go in the books.

Eagles defeated by Indiana, 19-12

The Eagles (5-2) journeyed to the Indiana School for the Deaf Friday, Oct. 21, and lost 19 to 12 in a night game which saw all touchdowns scored on runs of 40 yards or more.

Bob Wilkins, Eagles running back, made the first touchdown of the game on a 58-yard run but Andrew Metz of Indiana, who rushed 140 yards for the evening, scored on a 62-yard gallop. In the second quarter, Indiana added another touchdown on a 50-yard run by Hancock. That ended the scoring for the half.

MSSD came back in the third quarter to even the game at 12 all when Pat Crooks raced 70 yards to the endzone. On Indiana's last possession of the game, with about two minutes remaining, Metz again broke through the line and raced 40 yards for the game winning TD. The extra point kick was good.

In other MSSD sports results, the girls volleyball team had a successful week. After losing to Spalding, the girls

Volleyball games set

Faculty and staff members are invited to participate in a noon time coed volleyball game every Tuesday and Thursday from Nov. 1 through the end of the semester in December.

Sponsored by the Department of Physical Education and Athletics, the games will be held from noon to 1 p.m. at the North Court of the Field House.

regrouped and defeated St. Agnes. MSSD hosted an invitational volleyball tournament on Oct. 21 and the girls defeated Seton, Immaculata, O'Connell and Pallotti to capture the invitational championship. The girls are now sporting a 13-5 record.

Trip to Brazil planned

The College's Department of Russian is sponsoring an end-of-year trip to Rio de Janeiro, Brazil, open to alumni, staff, faculty and students and all hearing impaired persons and their friends.

The eight-day, seven-night trip to Rio de Janeiro is scheduled for Dec. 26, 1983 to Jan. 3, 1984. The cost is \$925 from Miami, FL. Transportation will not be provided from Gallaudet to Miami.

A Boeing 747 will fly the group from Miami to Rio, where the group will stay at the oceanside Sheraton Hotel.

Breakfast at the hotel is included in the tour package. The group will have the services of an American Sign Language interpreter throughout the trip.

For more information about the trip, contact the Department of Russian at x5387 (voice or TDD).

Exhibit closes

The "Look of Sound" exhibit in Chapel Hall has been closed so that equipment can be moved from the area to the new exhibit area in the EMG Building.

Gallaudet hosts 'magical' evening

by Mike Kaika

Is the hand quicker than the eye? Is there such a thing as levitation? You can find out for yourself during an Evening of Magic on Friday, Nov. 18 at Elstad Auditorium.

American deaf professional magician Gary Lensbower will perform his acts of magic and stage illusions. Accompanying Gary will be his wife, Jill, and their 4-year-old son, Bert.

Gary Lensbower, who was born deaf, became interested in the Art of Magic at the age of 8 when he was attracted to the magician's creed that "the hand is quicker than the eye." Through perseverance and training, he learned his craft thoroughly and exhibited his magic show to civic organizations and local groups. In recent years, he has performed in Europe, Japan, South America and Canada.

He has held his audiences, both deaf and hearing, in awe with feats seen on television. His acts include inserting razor-sharp blades in a box with his wife inside, escaping from a locked trunk in just a few seconds, levitating someone in mid-air as well as other tricks. He may even call on someone in the audience to participate in one of

the acts.

Lensbower and his family live in Alexandria, VA, and although he has performed hundreds of shows in the metro area, this will be his first Gallaudet appearance since 1968.

An Evening of Magic is sponsored by the D.C. Chapter of the Gallaudet College Alumni Association. Tickets, at \$5 for adults and \$3 for students and children, can be purchased from Polly Peikoff (Ole Jim), Marianne Sassee (KDES), Janet Weinstock (MSSD), Mike Kaika, Lynn Jacobowitz and Mike Olson (College).

Persons from off campus can order tickets by writing to Mike Kaika, Office of Alumni and Public Relations, Gallaudet College, Washington, D.C. 20002. Make checks payable to D.C. Chapter—GCAA. Or, phone Mike at 651-5108 (TDD only) between 9 a.m. and 4 p.m.

There will be no reserved seats. Seating will be on a first come, first seated basis. Tickets will also be sold at the door starting at 7 p.m. The show starts at 7:30 p.m.

Following the show, the Ole Jim will open for alumni and friends. Mixed drinks, beer, wine and soft drinks will be served at a cash bar.
